MODEL 640-P AND 640-PS PORTABLE PLATFORM SCALES

Tubular steel construction for strength and four point overload protection for accuracy and durability. The multi-point bumper system protects scale from shock loading and holds the platform securely in place while allowing for easy removal for cleaning, calibration or service.

Model 640-P features four poly bonded 4" wheels, with roller bearings and grease fittings.

Model 640-PS features two fixed and two swivel poly bonded 4" wheels, with roller bearings and grease fittings.

Model 640-P Features:

- 100 lb. to 1,000 lb. capacity.
- Low maintenance cost.
- Structural tubular carbon steel construction.
- Environmentally protected, NTEP Certified-5000 Division aluminum load cell.
- (4) Poly bonded 4" wheels, w/ roller bearings and grease fittings.
- Heavy gauge painted steel cover.
- 4 point overload protection.
- 1 part in 5,000 accuracy.
- Urethane enamel paint.
- 40" high indicator column with mounting plate.
- OSHA orange safety handle grips.
- Shock absorbing platform bumpers.

Model 640-PS Features:

- (2) Poly bonded 4" wheels, w/ roller bearings and grease fittings. (front)
- (2) Poly bonded 4" swivel wheels, w/ roller bearings and grease fittings. (rear)
- 100 lb. to 1,000 lb. capacity.
- Low maintenance cost.
- Structural tubular carbon steel construction.
- Environmentally protected, NTEP Certified-5,000 Division aluminum load cell.
- Heavy gauge painted steel cover.
- 4 point overload protection.
- 1 part in 5,000 accuracy.
- Urethane enamel paint.
- 40" high indicator column with mounting plate.
- OSHA orange safety handle grips.
- Shock absorbing platform bumpers.
