RUFF-WEIGH 100 HYDRAULIC WEIGHING SYSTEM For Skid Steers, Large Loaders & High Capacity Forklifts

The Ruff-Weigh 100 is a static Hydraulic Weighing System for Skid Steer Loaders and High Capacity Fork Lifts. The Ruff-Weigh 100 Weighing System utilizes both accurate components combined with simple functions that will allow you to achieve new levels of efficiency. Obtain your weight readings quickly and store them into memory to calculate a truck total. With the two display, easy-to-use keyboard, operators can view both the individual and total truck weight. Designed with ease-of-use in mind, the Ruff-Weigh 100 Weighing System has several add-on capabilities and is equipped with a Remote Total Switch for ease of totalizing your individual lifts.

The Ruff-Weigh 100 can be installed in approximately 4-5 hours and requires **NO PROXIMITY SWITCHES AND NO WELDING!**

Features and Specifications:

- 99% Accurate (Typical)
- .5-Inch LED for Individual Weight Display
- .3-Inch LED for Accumulated Weight Display
- Operates at 10-40VDC
- No Proximity Switches Required
- No Welding Required for Installation
- View individual and total weight on one display
- Key-Less Calibration
- Operator Friendly
- Remote Total Switch (Foot or Hand Control)
- RS232 Port for Printer Interface
- Expanded Add-On Capabilities
- 12-Month Warranty against defects in material and workmanship

Complete installation kit included.

Choose from foot or hand control remote total switch.
