MODEL 700-PAW-HD PORTABLE AXLE WEIGHER

Features:

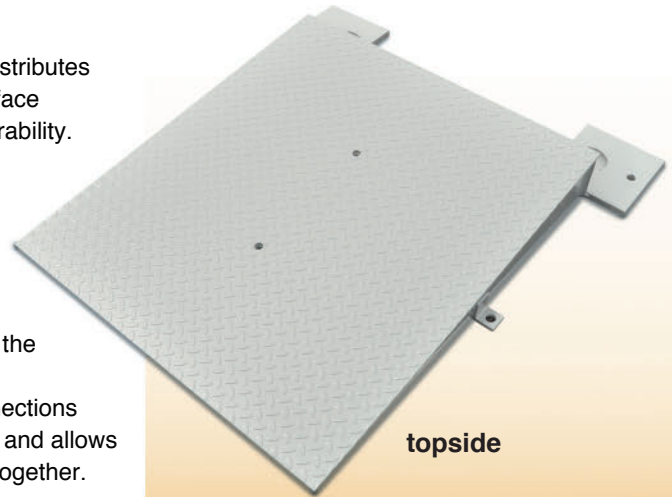

4" structural tubular steel cross-strut design equally distributes weight over entire scale surface for superior strength and durability.

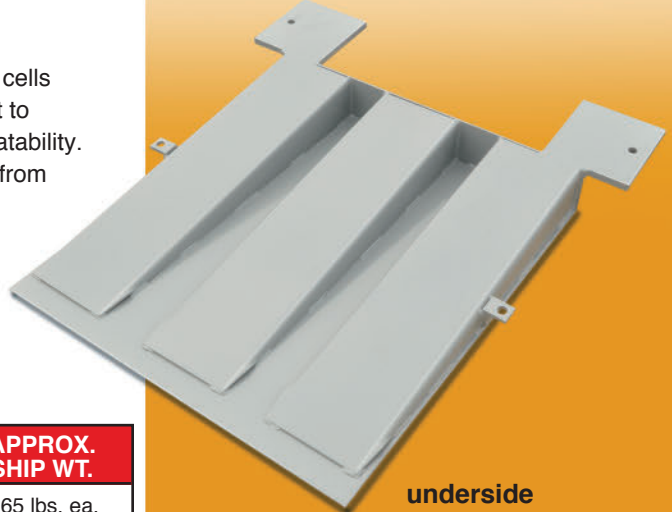

Easy top access to the polycarbonate NEMA 4X junction box mounted inside the tubular steel frame. Watertight junction box connections make set-up quick and easy and allows multiple scales to be linked together.

15K & 20K "Heavy Duty" environmentally sealed load cells with captive ball leveling feet to guarantee stability and repeatability. Rock guard prevents debris from accumulating between scale and ramps.

Cambridge Scale Works, Inc. will warrant this product for one full year against defects in material and/or workmanship.

Model 700-PAW-HD Ramps
Feature standard asphalt package constructed with formed supports and diamond tread deck plate, pre-drilled lag downs and leveling feet locators to firmly secure the scale in place.

Ramps are also available with an optional hard pack package for use on softer surfaces.

• Note: Portable Axle Weighers and ramps are sold separately.
