CAMBRIDGE

MODEL 701-PAW PORTABLE AXLE WEIGHER

Features:

3" structural tubular steel cross-strut design equally distributes weight over entire scale surface for superior strength and durability.

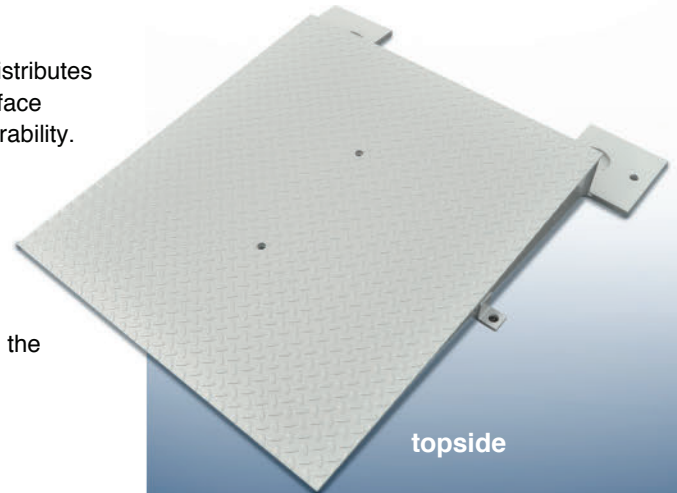

Easy top access to the polycarbonate NEMA 4X junction box mounted inside the tubular steel frame.

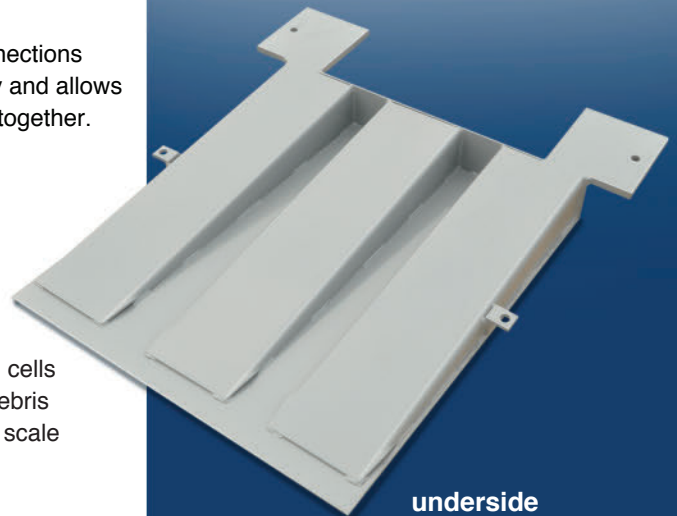

Watertight junction box connections make set-up quick and easy and allows multiple scales to be linked together.

Features four 10,000 pound environmentally sealed load cells and rock guard to prevent debris from accumulating between scale and ramps.

topside

underside

Options: • Stainless steel load cells • Ramps
• WI-CELL®- wireless load cell communication
